List %1. style 0 start 1

1. Item 1 of the list
2. Item 2 of the list
3. Item 3 of the list
4. Item 4 of the list
5. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1) style 4 start 1

a) Item 1 of the list
b) Item 2 of the list
c) Item 3 of the list
d) Item 4 of the list
e) Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List (%1) style 3 start 1

(A) Item 1 of the list
(B) Item 2 of the list
(C) Item 3 of the list
(D) Item 4 of the list
(E) Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 2 start 1

i. Item 1 of the list
ii. Item 2 of the list
iii. Item 3 of the list
iv. Item 4 of the list
v. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 1 start 1

I. Item 1 of the list
II. Item 2 of the list
III. Item 3 of the list
IV. Item 4 of the list
V. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 22 start 1

01. Item 1 of the list
02. Item 2 of the list

03. Item 3 of the list
04. Item 4 of the list
05. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 5 start 1

1st. Item 1 of the list
2nd. Item 2 of the list
3rd. Item 3 of the list
4th. Item 4 of the list
5th. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 6 start 1

One. Item 1 of the list
Two. Item 2 of the list
Three. Item 3 of the list
Four. Item 4 of the list
Five. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 7 start 1

First. Item 1 of the list
Second. Item 2 of the list
Third. Item 3 of the list
Fourth. Item 4 of the list
Fifth. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 0 start 98

98. Item 1 of the list
99. Item 2 of the list
100. Item 3 of the list
101. Item 4 of the list
102. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 4 start 24

x. Item 1 of the list
y. Item 2 of the list
z. Item 3 of the list
aa. Item 4 of the list

bb. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 2 start 8

viii. Item 1 of the list
ix. Item 2 of the list
x. Item 3 of the list
xi. Item 4 of the list
xii. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

List %1. style 1 start 38

XXXVIII. Item 1 of the list
XXXIX. Item 2 of the list
XL. Item 3 of the list
XLI. Item 4 of the list
XLII. Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge

Bulleted list

- Bullet 1
- Bullet 2
- Bullet 3
- Words long enough to wrap onto a second line so the hanging indent shows: Typesetting depends on small decisions repeated thousands of times: where a line ends, how much space follows a paragraph, and which words travel toge
